

Sept. 10, 2015

Mr. Stewart Rhodes,

Thanks for helping people prepare. I attended the Appalachian Summit and spoke to you briefly. Having been in “the battle” for over two decades, I finally see an awakening. However, the dark side anticipated all eventualities and has crafted contingency plans. I feel when chaos commences they will use foreign troops.

I am for real and seriously convicted. The SPLC has tried to demonize me as dangerous (see attachment). Indeed, I strive to be quite dangerous to tyrants.

We see the power of the people in Grayson, Kentucky. In West Virginia, we’ve put the government in default and dishonor. We’ve exposed the heart of the beast system, the private, for-profit corporate machine that the oligarchs use to manipulate and shield themselves from the people.

If/when the government moves to disarm and roundup people, it will get very ugly. It is possible to pre-empt their plans for complete carnage with the remedy used at the Bundy Ranch and outlined in the Declaration of Independence.

We are in discussion with several groups to do what is reasonable, lawful, and considering the alternative, prudent. When our servants break their oaths, become tyrannical, are duly petitioned, and continue unhindered in their unlawful actions, it is our right and duty to throw off the perpetrators and restore a righteous system.

The Oathkeepers is a logical force in effectuating righteous government of, by, and for the people.

God doesn’t make mistakes and he made us for such a time as this. Please contact me as soon as possible.

Phillip Hudok
